## They're Calling on you!

Gorilla's are on the brink of extinction. They're calling on YOU to donate your phone today!

You can now help save Gorilla's in Africa simply by donating your mobile phone! Each time your mobile phone rings, a tiny piece of metallic ore from Africa is making this call possible: coltan.

By donating your phone through the *They're Calling on You* mobile phone recycling program you are:

- Diverting your phone from landfill
- Helping Taronga and Taronga Western Plains Zoos raise money to support the Jane Goodall Institutes primate conservation work in Africa through the sale of refurbished phones and ...
- Lessening the demand for coltan mining by providing the coltan coated capacitor in your old mobile phone a second life.
